**EXAMINER'S AMENDMENT**

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

The application has been amended as follows:

In the Specification, page 1, line 2, after "2002," and before "which is", please insert ---now US 6,677,420 B2,---

2. The following is an examiner's statement of reasons for allowance:

Prior art of record, taken alone or in combination, do not fairly suggest or disclose the presently claimed composition comprising monomers (I), (II) and (III), wherein each  $m_1$  and  $m_2$  in monomer (I) ranges from 2 to 6 and that the mixture of monomer (I) has an average  $m$  less than 5. Prior art of record further failed to suggest the corresponding transparent polymer substrate and optical lens having a refractive index ranging from 1.48 to 1.52 as expressed in claims 48-53. Accordingly, the instant invention as defined by claims 26-53 is patentable with respect to prior art of record.
